Slots for the battery for SIM cards and Micro SD cards

Power On

Power On / Off

Press and hold the power button until the display lights up.

To turn off, press and hold the button; a menu will appear on the display. Select the desired action to shut down or restart the device.

Power Indicator

Battery is in normal condition

Power adapter connected

Battery or charging error

Battery Charging

The battery is charging using the device's power adapter. The charging status will be displayed on the screen.

It is not recommended to leave the battery charging for more than 48 hours.

Installing the receipt roll

1. Open the printer cover;
2. Insert the receipt paper;
3. Close the printer cover while holding the end of the receipt roll outside.

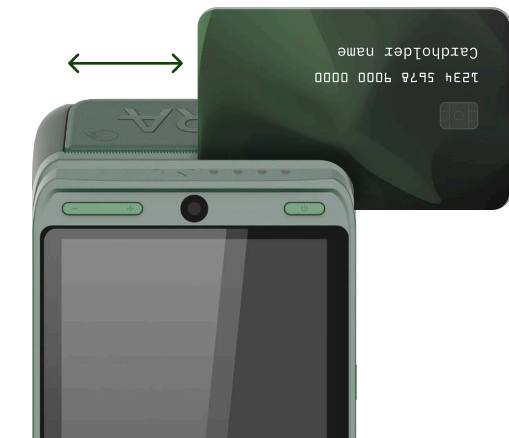

You can tear off the receipt roll by pulling the paper upwards along the cutting blade.

Card reader

Magnetic stripe cards:

1. Insert the card from the left or right edge of the reader with the magnetic stripe facing down;
 2. Smoothly swipe the card through the slot.
-

The card can be swiped in both directions.

Card reader

Chip cards:

1. Place the card chip side up
2. Insert the card into the slot until it stops
3. Follow the prompts on the display

After the payment is processed, you can remove the card

Contactless payment via NFC

Touch your card or device to the ERA logo located on the receipt printer cover.

Indicator for the contactless payment sensor

Symbol next to the ERA logo

SIM cards

To install the SIM card, open the battery cover on the back of the device.

Insert the SIM card into the slot and close the cover.

The battery can be lifted if necessary.

Micro SD card

You can install the memory card by opening the battery cover on the back of the device. Insert the MicroSD card into the appropriate slot. Close the battery cover.

Device care and cleaning

To clean the screen and body, use a slightly damp, soft, lint-free cloth.

Do not use abrasive materials, as they may damage the screen.

Do not immerse the online cash register in water or liquids. Do not spray water or cleaning agents into the reading device, card slots, or battery compartment.

Operating Recommendations

Third-party, non-original batteries may cause damage to the device or lead to fire hazards. Avoid exposing the device to direct sunlight, excessive dust, moisture, and heat. Do not place the device near electrical devices that may cause interference, such as microwave ovens and hair dryers. Avoid strong shaking or dropping of the device.

For assistance and consultations, please contact technical support.

Battery and Power Supply Tips

Use only the original battery and charger. Charging the battery for extended periods can reduce its lifespan. If the battery is rarely used, charge it every 6 months to prevent shortening its life. Replace the battery with a new one if it hasn't been used for 2 years. Dispose of the used battery properly.

Stop using the device if the battery is damaged. Do not expose the battery to direct sunlight, smoke, or dust. Avoid hitting the battery and do not place it in liquid or fire.
